(54) SLOT MACHINE

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a slot machine permitting complex movements of turning reels so as to achieve new game properties, and being easy to change in design.

SOLUTION: A large liquid crystal display 2 is mounted in the slot machine and, in addition to true turning reels Ra to Re which comprise wheels to be actually turned, false turning reels 1a to 1c are provided which achieve false turning movements based on image data.
